

# Transportation Engineer | NYC

**Sam Schwartz Consulting, LLC (Sam Schwartz)** is a cutting-edge transportation planning, engineering, and environmental firm known nationally for our ability to solve complex transportation problems with creative, multi-modal solutions. Our work includes diverse, high-profile projects such as the World Trade Center, Barclays Center, and the Second Avenue Subway, along with design and strategic planning for cities nationally. We are currently seeking a Transportation Engineer for our New York City office.

## Primary Responsibilities

The selected individual will perform various transportation planning and engineering tasks such as:

- Conducting site visits and field observations
- Performing traffic and transportation analyses
- Developing transportation metric reports
- Problem solving
- Preparing high-quality graphics
- Report writing
- Developing presentation materials

## Skills and Qualifications

The candidate must be organized, able to work in a collaborative group environment, think creatively, and meet the following qualifications:

- A bachelor's degree in civil or transportation engineering
- 1 to 4 years of experience in traffic engineering and/or transportation planning in the New York metro area
- EIT certification
- Proficiency in Microsoft Excel, AutoCAD, and Adobe Illustrator
- Programming experience (VBA, C++, Java, etc.) is a plus
- Excellent written and verbal communication skills

Please forward resume and cover letter to [jobs@samschwartz.com](mailto:jobs@samschwartz.com) with "Transportation Engineer-NYC" in the subject line. Work samples and references will be requested.
