Afternoon Speakers: Michael Flynn, AICP from Sam Schwartz Engineering

Topic: Engineering Great Main Streets: Transportation as an economic development tool

Transportation engineers and planners can play a critical role in creating vibrant, economically healthy neighborhood main streets. This presentation will outline the relatively quick and low-cost methods outlined in the NACTO Urban Street Design Guide for making most efficient use of parking lanes and intersections. It will also highlight a methodology developed in New York City to quantify the impacts of such improvements on local businesses.

PDH: 1.5 PDH (PIE: NY, NJ, PDH's Pending)
