

Hardesty & Hanover is a full-service infrastructure engineering firm with more than 130 years of experience steeped in solving complex engineering challenges. Consulting firms, contractors and infrastructure owners count on us when innovative design and intricate engineering solutions are required. Our specialty lies in the ability to manage the entire life cycle of engineering services and support. We employ teams of superior engineers that bring a forward-thinking approach using the world's latest project management, design, and support innovations. As a result, your projects are brought in on time, on budget, and are engineered to the highest standards in design, durability, safety, and aesthetic value.

We are offering an exciting opportunity for a Mid-Level Civil Engineer in our New York City Office
