

Traffic Design Project Manager in Salem, Oregon!

We are seeking a experienced Traffic Design Project Manager in our Salem, OR office. Salem, the state capital, is an hour outside of Portland and is close to many outdoor activities including Silver Creek Falls, Detroit Lake, the Oregon coast, Oregon wine country, several city parks, hiking trails, and easy access to water for swimming and fishing. The greater Salem area is home to many family-friendly attractions including the state capital building, Gilbert House Children's Museum, indoor playgrounds, the McMinnville Air and Space Museum, the Kroc Community Center with an indoor waterpark, the Mt. Angel Oktoberfest celebration, and the annual 3-on-3 Hoopla basketball tournament in the summer. For active transportation enthusiasts who enjoy exploring the city or commuting via walking and biking, Salem is a great city to live in.

DKS is proud to be 100% employee-owned with a commitment to making a meaningful difference in our communities. As part of the DKS team you will be part of a collaborative environment where every employee-owner is encouraged to share ideas and participate in strategic discussions focused on shaping the future of transportation and of our firm. At DKS we put our employee-owners first. We realize our unique and diverse employee-owners are the heart of our firm. Not only do we work hard to accomplish our goals, we also play hard to celebrate our victories! We welcome the opportunity for you to become an employee-owner of DKS!

Responsibilities:

This position will manage the design of various transportation engineering projects that may involve traffic signals, roadway/street lighting, signing, striping, temporary traffic control, intelligent transportation systems (ITS), and fiber optic communications. This includes managing the scope, schedule, budget, earned value analysis, staffing allocation, and accounts receivable. As the Project Manager you will also be responsible for overseeing and reviewing the preparation of final design plans, specifications, and estimates (PS&E), and attending client meetings.

Not only will you have the opportunity to manage a variety of projects, you will also have the opportunity to grow as a transportation engineering professional by expanding our design practice, managing client relationships and pursuing new client relationships, and growing a team of engineers to support the projects you will be managing.

Requirements:

Eligible candidates will have their bachelor's degree in Civil Engineering, Transportation Engineering, or similar field, their Professional Engineering license and the ability to obtain their license in Oregon, 6+ years of experience in the transportation engineering industry, and project management experience.

Benefits:

DKS offers its employee-owners a comprehensive benefits package. We have designed a benefit plan we are proud of that encourages happy, healthy, and engaged employee-owners. We offer:

- Vacation & Sick Leave
- 8 Paid Holidays
- Employer paid Disability, Life, & AD&D Insurance Coverage
- 100% DKS paid Medical for our employee-owners
- 80% DKS paid Medical for spouse and dependents of our employee-owners
- Extremely affordable Dental & Vision Plans
- Flexible Spending Account (Health Care & Dependent Care)
- Health Savings Account Options
- Transit Subsidy
- Transit and Parking Cafeteria 125 Plans
- DKS funded Employee Stock Ownership Plan (ESOP)
- 401k Pre-tax and Roth options

DKS Associates is an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to status as a protected veteran or a qualified individual with a disability, or other protected status such as race, religion, color, national origin, sex, age.
