

We Bring the World to New Jersey

**Senior Transportation Engineer**  
**January 2021 Posting**

The New Jersey Sports & Exposition Authority (NJSEA) is a state regulatory agency responsible for zoning and planning, as well as the oversight and management of a transportation planning district, within the 30.3-square-mile Hackensack Meadowlands District in northern New Jersey.

Primary duties of the Senior Transportation Engineer include:

- Technical reviews of transportation/traffic plans and traffic impact studies
- Transportation plans and projects including:
  - Traffic signal design, operation, and maintenance
  - Roadway/intersection design and inspection
  - Construction management and cost estimates
- Transportation modeling and planning

BSCE required. N.J.P.E. license required, along with 5+ years of experience in transportation engineering field. PTOE and IMSA Level 1 or higher preferred. Working knowledge of AASHTO and MUTCD. AutoCAD proficiency required. Experience with HCS, Synchro, and adaptive signal systems preferred.

Applicants must be self-motivated and possess strong verbal, written, organizational and analytical skills. NJ residency required.

The NJSEA offers a competitive salary and a comprehensive benefits package. Send resume along with salary requirements to NJSEA, One DeKorte Park Plaza, P.O. Box 640, Lyndhurst, NJ 07071, attention: Human Resources; fax to 201-460-1722; or send via e-mail to [resumes@njsea.com](mailto:resumes@njsea.com).
