CURRENT ACTIVITIES:

ASCE

American Society of Civil Engineers:

- We help each other to become academically, professionally, and socially active.
- Encourage each other to become acquainted with and practice working together effectively.
- Promote a spirit of congeniality among civil engineering students and provide friendly contact with the engineering profession.

Student Chapter of the American Concrete Institute:

- Familiarize with concrete applications by competing in national competitions and conventions.
- Take materials learned in concrete, construction, and civil classes and engage that knowledge in creative competitions/events.
- Besides competitions, there are a number of conventions/dinners where we network with big companies.

American Water Works Association Student Chapter:

- Interest in the water industry including water supply, distribution, and quality.
- Through some events, help each other learn more about water as we emphasize our dedication to taking care of our environment.
- Volunteering at nearby parks or streams, and visiting water and wastewater treatment plants which help us broaden our knowledge and experiences.
- Build connections by attending professional events.
